

Cassida Cube

Automatic Mixed Bill Counter and Sorter

Counting mixed bills just got easy!

The Cassida Cube saves you time and effort by accurately counting and sorting mixed bill stacks. No need to sort by hand... simply stack bills of all denominations right on the Cube, press a button and counting begins. The cube identifies denominations automatically and tracks both the count and value of bills run through. You even get a report at the end, showing the bills processed.

■ Better than a bill counter

The Cube automatically identifies the denomination of every bill passed through, so you'll always have accurate counts.

■ Easy till set-up

The Cube quickly sorts mixed denominations and it batches, too

■ Count on the go

Its battery power lets you take the Cube to events, garage sales or anywhere you need to count stacks of mixed bills.

- Recognizes mixed denominations automatically
- Choose SORT to sort by the denomination of first note through
- Accurately counts and totals up to 250 bills per minute
- Counts anywhere – AC or battery powered
- Compact footprint fits into any cash processing center
- Great for retailers, offices, events, restaurants

Report screen shows both count and total

Compact size
